Action Steps

1. Pick ONE hustle from the list above — don't try to do all 10
2. Spend 30 minutes today setting up your profile or listing
3. Tell 5 people what you're doing — accountability works
4. Track your first \$1 earned — that's the hardest one

■ **PRO TIP:** The difference between people who make money online and those who don't is NOT talent or luck. It's simply taking the first step. Pick one hustle, spend 30 minutes on it TODAY, and you're already ahead of 90% of people.
